Find your program by browsing programs on the GEO website.

Click “Apply Now” to begin the application process.
Log in with Northeastern Account. You will then be redirected to sign in with the Northeastern SSO.
Select whichever term you are applying for.
You now will begin the application. The first few steps are to read up on policy. Click “Mark as read” once you have read through each step.
You will then have to answer a 6 question multiple choice quiz to confirm you’ve read the policies. You must get 100% in 5 attempts.
There are some short (4000 character) writing prompts for each application. We recommend writing externally first as the built-in tool doesn’t have spellcheck.
You are required to input passport information. If your passport needs to be renewed or you need to acquire one, fill in the current information and you can update it later.
Confirm here that you have talked with your academic advisor and studying abroad fits in your plan.

You also must specify at least two classes you want to take. You can find classes on the program website (Academics tab on NEU program page) and cross reference with the Northeastern transfer database.
You will need to submit a Northeastern transcript. You can follow the link to get an official transcript, or going to My Transcript in the Academics tab of Resources in your Student Hub to obtain an unofficial transcript is also acceptable.
You will also have to sign on several Northeastern policies. Clicking Sign constitutes your legal signature.
Once every section is done. This will pop-up. Click on the button to submit. After that, you are all set for the moment, and GEO will reach out with further steps.
